CAREER OBJECTIVE

Highly experienced and results-driven Senior Software Developer with a strong background in designing, developing, and deploying scalable software solutions. Seeking to leverage over [5 years] of hands-on experience in full-stack development, team leadership, and agile methodologies to contribute to innovative projects and drive technical excellence in a dynamic and growth-focused organization

SKILLS

Core PHP Skills	Advanced PHP (OOP, design patterns) PHP frameworks (Laravel, Symfony, CodeIgniter, Zend) Composer and dependency management RESTful and SOAP APIs Error handling & debugging (Xdebug, logs)
Frontend Skills	HTML5, CSS3, JavaScript (ES6+) Frontend frameworks/libraries (Vue.js, jQuery) Bootstrap / Tailwind CSS AJAX, JSON, XML
Database & Backend	MySQL, SQL (advanced SQL, indexing, query optimization) MongoDB / NoSQL databases Queues (Laravel Queues)
DevOps & Deployment	Version control (Git, GitHub/GitLab) Docker(basic knowledge) Nginx/Apache server setup & tuning Cloud services bluehost, hostener CPanel
Soft Skills	Team leadership & mentoring Agile/Scrum methodologies Project management tools (JIRA, Trello) Problem-solving and critical thinking Excellent communication skills

API Integration

RESTful and SOAP API handling

Handling webhooks and callbacks

Knowledge of JSON/XML for request/response

Experience with common payment gateways (e.g. Apple pay, PhonePe, GooglePe, Stripe, PayPal, Razorpay, Paytm, Payu)

EXPERIENCE

Jan 2018 to Jun 2018

Maxgen Technologies Pvt. Ltb.

PHP Developer

Training In Php Developer

Mar 2019 to Jun 2019

HV Infotech Pvt. Ltb.

PHP Developer

Web Developement/Programming, Mature knowledge in managing PHP, AJAX, MYSQL and JAVA SCRIPT, CSS, HTML., knowledge in Concepts of OOPS.

Aug 2019 to Dec 2021

Global India Technologies

PHP Developer

Developed and maintained dynamic web applications using PHP, MySQL, HTML, CSS, JavaScript, and jQuery.

Worked with frameworks like Laravel/CodeIgniter (adjust based on your experience) to build scalable and secure backend systems.

Integrated third-party APIs, payment gateways, and RESTful web services.

Optimized database queries and implemented caching to improve performance.

Dec 2021 to Jul 2022

Saubhagyam Web Pvt. Ltb

Sr. PHP Developer

Developed and maintained dynamic web applications using CodeIgniter and Laravel frameworks.

Engaged in full-stack development with strong knowledge of OOP concepts and hands-on experience in PHP, HTML, CSS, JavaScript, AJAX, and SQL.

Designed and implemented RESTful APIs and backend services to support modern web applications.

Worked collaboratively with UX/UI teams to build responsive, user-friendly interfaces.

Ensured cross-browser compatibility, consistent code structure, and performance optimization.

Used Git and GitHub for version control, code collaboration, and workflow management.

Conducted detailed debugging, performance analysis, and resolved issues with a methodical and analytical approach.

Created and maintained detailed technical documentation, including system architecture and development processes.

Jul 2022 to Oct 2023

Team Leader & Software Developer

Quest Infosense Pvt. Ltd.

Acted as a liaison between technical and non-technical teams to ensure clarity of project requirements and objectives.

Led weekly team meetings, conducted code reviews, and provided regular performance evaluations to support team growth.

Diagnosed and resolved complex web-related issues using strong analytical and problem-solving skills.

Collaborated with cross-functional teams to define software requirements and contribute to system design.

Ensured code quality and adherence to best practices through thorough code reviews.

Designed, developed, and launched a fully functional eCommerce platform: mydermastore.in.

Built and deployed various RESTful APIs and backend services for a real estate application: app.mend.homes.

Developed both frontend and backend components for an online course management system: atheerna.com.

Oct 2023 to Still Working

Sr. Software Developer

Amar InfoTech - AI Development Experts India

Lead the design, development, and maintenance of scalable web applications using PHP and the Laravel framework.

Collaborate with cross-functional teams including frontend developers, designers, and product managers to translate business requirements into technical solutions.

Architect and implement RESTful APIs and backend services for web and mobile applications.

Optimize application performance, scalability, and security following best practices and industry standards.

Conduct regular code reviews, mentor junior developers, and enforce clean, maintainable code.

Integrate third-party services and APIs to enhance application functionality.

Manage deployments, version control (Git).

Troubleshoot, debug, and resolve application issues in a timely manner.

Write and maintain technical documentation for internal use and future reference.

Stay up-to-date with emerging trends and technologies in PHP, Laravel, and the broader web development ecosystem.

Project Name : Medicine & Health Products eCommerce Platform,
<https://www.mydermastore.in>

Role : Development & Review

Team Size : 12

Project Duration : 6 Month

Project Detail

Developed and maintained a dynamic eCommerce platform for selling medicines and health products.

Built key modules including product listing, search & filter, cart, checkout, and payment integration using Laravel.

Implemented secure user authentication, prescription uploads, and order verification processes.

Created a custom admin dashboard for managing orders, inventory, and customer data.

Integrated Razorpay for online payments and set up automated notifications via email and SMS.

Ensured site performance, responsiveness, and SEO best practices for better visibility and user engagement.

Project Name : Online Course Management System, <https://www.happylifeuniversity.in>

Role : Full-Stack Developer (PHP
Laravel & Frontend)

Team Size : 6

Project Duration : 8 Month

Project Detail

Designed and developed both frontend and backend components of a comprehensive online learning platform.

Implemented features for user registration, course enrollment, progress tracking, and certificate generation.

Created secure dashboards for students, instructors, and admins with role-based access controls.

Developed a responsive user interface using Blade templating, Bootstrap, and custom CSS.

Built backend logic for course content management, video uploads, quizzes, assignments, and reports.

Integrated email notifications, payment gateway, and content access restrictions for paid users.

Optimized database queries and implemented caching to improve performance and scalability.

Conducted testing, debugging, and deployment for a smooth, production-ready launch.

Project Name : Aviation Billing Software

Role : Backend Developer (PHP
Laravel)

Team Size : 5

Project Duration : 6 Month

Project Detail	Developed a custom billing system tailored for the aviation industry to manage invoicing, payments, and financial reporting.
	Created modules for flight tracking, service usage logging (fuel, maintenance, parking), and automated bill generation.
	Integrated real-time data inputs from flight operations and ground handling systems.
	Built a dynamic invoicing engine to calculate charges based on aircraft type, flight duration, and service usage.
	Implemented user roles for admins, finance teams, and service providers with role-based dashboards.
	Enabled PDF invoice generation, GST-compliant billing, and multi-currency support.
	Developed reporting tools for revenue analytics, pending payments, and audit logs.
	Ensured high accuracy and reliability in financial data processing and calculations.

Project Name : Flight and Hotel Booking System

Role : Full-Stack Developer (PHP
Laravel)

Team Size : 15

Project Duration : 1 Year

Project Detail	Designed and developed a full-featured booking platform for flights and hotels, enabling users to search, compare, and book travel services in real-time.
	Integrated third-party APIs (e.g., flight schedules, hotel availability, pricing) for dynamic data updates.
	Developed secure modules for user registration, booking management, payment processing, and ticket/invoice generation.
	Implemented filters for destinations, dates, pricing, amenities, and class of travel.
	Built an admin panel for managing listings, reservations, user accounts, and financial reports.
	Added features like booking cancellation, refunds, wallet system, and coupon discounts.
	Ensured mobile responsiveness, fast loading times, and high availability through performance optimization and caching.

EDUCATION

Degree/Course	Institute/College	University/Board	Percentage/ CGPA	Year of Passing
---------------	-------------------	------------------	---------------------	-----------------

SSC	Adarsh Vidhyalaya, Visnagar	GSEB, Gandhinagar	52.42%	2011
HSC	Adarsh Vidhyalaya, visnagar	GSEB, Gandhinagar	58%	2013
B.SC (CA & IT)	Hemchandrac harya North Gujarat University, Patan	Hemchandrac harya North Gujarat University, Patan	73.32 CGPA	2016

HOBBIES

Learning New Things, Reading New Thoughts

PERSONAL DETAILS

Address	B/11, 407, Dwarka Apartments
Date of Birth	02/08/1995
Gender	Male
Nationality	India
Marital Status	Married
Language Know	Gujarati, Hindi, English

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
