Summary

Highly motivated Software Engineer with 2.6 years of experience in backend development, specializing in building scalable web platforms using technologies like Laravel, Django, and Shopify. Skilled in microservices architecture, with a solid understanding of software engineering practices such as testing, code reviews, and continuous learning of new technologies. Proven ability to work effectively in collaborative team environments and deliver impactful solutions.

Professional Experience

Software Engineer (Backend) – *Hacker Kernel*

June 2023 – Present

Key Projects:

- **CallMeWine**
 - Built a microservice-based platform for wine ordering online, integrating Shopify for e-commerce operations and Laravel for backend development.
 - Collaborated with cross-functional teams to implement seamless order processing and management features.
 - **Technologies:** Laravel, PHP, Shopify, Microservices Architecture, MySQL, JavaScript, AJAX, HTML, CSS
- **Trusted Clinic**
 - Developed a platform enabling real-time communication between doctors and patients for virtual consultations.
 - Integrated user-friendly interfaces with backend logic to facilitate smooth operations for medical professionals.
 - **Technologies:** Python, Django, HTML, CSS, JavaScript, AJAX
- **Fundsheets**
 - Developed features for managing and tracking financial records. Integrated Stock API to retrieve share prices and calculate valuations based on share price data.
 - Utilized Salesforce to automate company import and manage data efficiently.
 - **Technologies:** PHP, Laravel, MySQL, JavaScript, HTML, CSS

Software Engineer (Backend) – Web N Soft Solution Pvt. Ltd.

March 2022 – May 2023

Key Projects:

- **Gas Pipeline Management System**
 - Designed and developed a system for managing gas pipeline products, enabling customer service, job assignment to engineers, and tracking operations.
 - **Technologies:** PHP, Laravel, HTML, CSS, Bootstrap, MySQL, JavaScript
- **Happy Hour Restaurants (HHR)**
 - Developed features for restaurant table bookings, food delivery, and event management. Integrated commission-based sales for restaurant event tickets.
 - **Technologies:** PHP, Laravel, HTML, CSS, Bootstrap, MySQL, JavaScript, jQuery
- **E-Latihan**
 - Created an e-learning platform, including features for course purchasing, online classes, and corporate training management.
 - **Technologies:** Python, Django, HTML, CSS, Bootstrap, MySQL, JavaScript, jQuery

Education

Master of Computer Applications (MCA)

Scope College of Engineering, Bhopal

GPA: 7.78 | Graduated: 2023

Bachelor of Science (Computer Science)

Advance College, Indore

Percentage: 61.32% | Graduated: 2019

Technical Skills

- **Languages:** PHP, Python, JavaScript, C
 - **Frameworks:** Laravel, Django, Ci
 - **Web Development:** HTML, CSS, Bootstrap, jQuery, React Js, Tailwind
 - **Databases:** MySQL, SQLite
 - **Tools & Technologies:** Git, AJAX, Shopify, Microservices Architecture
-

Certifications & Training

- Certificate in Python Development – *Naresh I Technology Institute, Hyderabad*
-

Academic Projects

- **E-Learning Platform**
 - Designed a platform for online learning, allowing users to purchase courses and attend online classes.
 - **Technologies:** Python, Django, HTML, CSS, Bootstrap, SQLite
-

Achievements & Awards

- Certificate of training in Python from Naresh I Technology Institute, Hyderabad
-
