PROFILE SUMMARY

"**Front-End Developer** centric web applications. Proven ability to translate complex requirements into elegant, high-performance solutions, with a comprehensive understanding of the development lifecycle from **concept to deployment**. Passionate about leveraging **AI-driven insights** and the latest front-end technologies to innovate and enhance user engagement across digital platforms." with 1.8 years of hands-on experience in **React, JavaScript, HTML5, CSS3, and WordPress**, dedicated to creating responsive and user.

PROFESSIONAL EXPERIENCE

Swastik Corporation | Jabalpur

Frontend Developer Jan. 2023 - Aug. 2024

- **Led the development** of the organization's website, [Swastik Group](#), designing and implementing **user-friendly interfaces** with **reusable components** to facilitate rapid deployment and seamless updates.
- Utilized **Google Sheets** for **backend data management**, integrating it to dynamically populate content and streamline data handling processes, enhancing overall site functionality.
- **Optimized website performance** through strategic code enhancements, significantly improving load times and user experience while incorporating **AI-driven solutions** for advanced features.
- Proactively researched and adopted **new tools and techniques**, driving continuous website improvements and ensuring alignment with the latest industry trends.
- Evaluated project specifications to design and deliver **innovative technology solutions** that consistently met or exceeded client expectations.

EDUCATION

- **Master of Computer Applications (MCA)** (RGPV), 2024 **CGPA:** 8.2
- **Bachelor of Computer Applications (BCA)** (MCU), 2022 **CGPA:** 8.12
- **12th State Board** Govt. School of Excellence, 2019 **Percentage:** 63%
- **10th State Board** Govt. School of Excellence, 2017 **Percentage:** 68%

SKILLS

- **Languages:** HTML5, CSS3, JavaScript, SQL
- **Frameworks:** React, Tailwind CSS
- **Tools:** VS Code, Figma, Canva
- **Concepts:** OOP, design patterns, AI
- **CMS:** WordPress development and customization
- **Design:** UI/UX wireframing and optimization
- **Soft Skills:** Problem-solving, communication, teamwork

AWARD AND ACHIEVEMENTS

- **JavaScript Certificate** (Simplilearn)
- **HTML & CSS Certificate** (Great Learning)
- **SQL Gold Star** (Hacker Rank)

PROJECTS

- **Organizational Website Development (Live: [Swastik Group Website](#))** Contributed to the development of the live website for **Swastik Group** in **2024**, enhancing online visibility and user interaction. Utilized **HTML5**, **CSS3**, **JavaScript**, and **React** for **responsive front-end development**. **React** was used to build **reusable components** (e.g., interactive forms, dynamic content sections), ensuring efficient **state management** and smoother **user interactions**. Implemented **AI-driven features** for improved user experience, and managed real-time backend data using **Google Sheets**. Ensured fast loading times and cross-browser compatibility for optimal performance.
- **E-Commerce Website Development:** Developed an e-commerce website using **WordPress** in 2024, focusing on enhancing the user experience. Responsibilities included designing a **responsive WordPress theme**, implementing **SEO plugins** to improve search engine rankings, and creating a **user-friendly interface** for **real-time management** of products and content. Technologies used: **WordPress**, **MySQL**, and various **plugins**. Skills developed: **theme customization**, **plugin management**, and **SEO best practices**.
- **Nike Shoe Mobile App UI/UX Clone (2023):** Built Nike Shoe mobile app UI/UX clone in 2023, using wireframes in **Figma** to create an intuitive user flow and clean navigation. Designed with **Canva** for branding, **HTML** for structure, and **Photoshop** for high-quality visuals, this project highlights skills in **UI/UX design**, wireframing, and responsive e-commerce interfaces.
