Skills

Languages: JavaScript, TypeScript, C/C++, HTML, CSS

Technologies & Tools: ReactJS, Redux, Tailwind, SASS/SCSS, RESTful APIs, SharePoint, SPFx, PnPjs, GitHub, Vite

Work Experience

Codevision Technologies, Ahmedabad

Oct 2024 - Dec 2024

Front-End Developer Intern

- Developed a responsive web application using React and SPFx to enhance user experience and streamline business workflows.
- Built dynamic components and integrated them into a SharePoint environment, reducing manual reporting tasks by 40%.
- Collaborated with a development team to integrate RESTful APIs, enabling seamless client-server data exchange.

VYTECH ENTERPRISE, Ahmedabad

Jan 2023 – Mar 2023

React Developer Intern

- Acquired proficiency in HTML, CSS, and JavaScript during my internship, applying these skills to develop responsive and visually appealing web pages.
- Gained a comprehensive understanding of basic concepts and components in React, JSX syntax, React Router and the virtual DOM.
- Part of the company's web development team during the internship.

Education

INSTITUTE OF ADVANCED RESEARCH

2019 - 2023

B.Tech in Computer Engineering

CGPA: 7.56/10

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Cloud Computing, Operating Systems

Project Work

PASSKEY:

- This Password Manager project is built with React and Tailwind CSS to securely store and manage passwords.
- It includes features like add, edit and delete passwords.
- Passwords can be copied to the clipboard, along with buttons to show or hide them.

QUICKNOTES:

- Developed a Notes-Taking project using React and TypeScript, providing users with a platform to add, edit, delete, and mark their notes as complete or incomplete, along with drag-and-drop functionality.
- Defined strict interfaces and types using TypeScript to enhance maintainability, ensure type safety, and prevent runtime errors.

E-Commerce Platform:

- Developed a responsive eCommerce platform with secure authentication, product listing, and real-time database integration using Firebase.
- Implemented state management using Redux and Context API for seamless cart and session handling.
- Enhanced UI/UX using React and Tailwind CSS to ensure a responsive shopping experience.

Certificates

- Sololearn JavaScript, HTML and SQL
- AWS Builders Online Series
