PROFILE

To become a part of an organization where learning and innovation are the order of the day and where I can use my knowledge and talent and to the fullest extent possible, for growth of the organization.

WORK EXPERIENCE

Close Digit

UI/UX Designer

Completed a 15-day internship as a UI/UX Designer, where I was involved in product development processes and gained practical knowledge of designing user-friendly interfaces.

Restart Digital Services

Graphics Designer & Developer

Worked as a Graphic Designer for 3 months, learning various design tools such as Adobe Photoshop, CorelDRAW, Canva, and Figma. Later transitioned to the role of Developer, where I gained hands-on experience with basic web development technologies like Tailwind CSS, React.js (beginner level), and WordPress (beginner level).

Project

- **METRO WAVE.**

I along with my team members has made this project using the HTML, CSS for front-end develop, PHP for creating the back-end and SQL for creating database.

- **TOUCH CONTROL TABLE LAMP.**

I along with my team member has made this project which is IOT(Internet Of Things) based project. In this project we have used the hardware like Arduino R3, Relay Module, Jumper Wires Touch Sensor, Bulb and a Holder and in software we have used the C++ language as programming in Arduino and Arduino IDE for inserting the program in the project.

DECLARATION

I hereby declare the above information are true to the best of my knowledge.
