WORK EXPERIENCE

Cruise Booking (Oceantrip)

- OceanTrip is an online Cruise Booking System where users can **book cruises, hotels, and activities** easily. It shows only 3-star to 5-star hotels near the port and city, ensuring quality stays with the best offers and discounts. The platform has **secure login, advanced search, Filtration, easy booking, and multiple payment options**. Users also get **real-time notifications** for booking confirmations, reminders, and special offers.
- All user data, bookings, payments, and hotel details are securely stored in a MySQL database.

Company name (Thenextzeros)

- I have **6 months of experience** in this company. I **have worked on 7 projects in this company**. also include service base site and B2B site and e-commerce site experience
