SUMMARY

Frontend Web Developer Intern with hands-on experience building responsive and accessible web applications using modern technologies including **React.js**, **Tailwind CSS**, and **JavaScript**. Currently contributing to real-world projects at MoveoApps Development, collaborating with designers and developers to create dynamic, user-friendly interfaces. Skilled in component-based architecture, performance optimization, and version control using **Git**. Eager to continue growing as a frontend developer and contribute to impactful, scalable digital experiences.

PROJECTS

Deta Development

- Contributed to the development of a multi-page responsive website for *Data Developments*, a software company serving churches and charities.
- Built and styled interactive UI components including hero sections, solution cards, testimonial sliders, and contact forms using **React.js** and **Tailwind CSS**.
- Implemented a dynamic grid layout to ensure content-based sizing and responsive rearrangement of cards.

RentalHub

- RentalHub is a user-friendly web application built with React, HTML, CSS, and Bootstrap that streamlines the rental management process. It caters to businesses or individuals who rent out equipment, vehicles, or other assets.

PMAST

- Developed multiple static pages using **semantic HTML5** and **modern CSS3** techniques to ensure clean, maintainable, and accessible code.

EDUCATION

Bachelor of Computer Engineering

Government Engineering College, Modasa

📅 2021 - 2025

High-secondary school, science & secondary school

VIDHYADHISH VIDHYASANKUL, BHAVNAGAR

📅 2019 - 2021

CERTIFICATION

New India vibrant hackathon

Treasurehunt certificate in collage

SKILLS

REACT JS	JAVASCRIPT	CSS
TAILWIND CSS	MYSQL	HTML
NODE JS	REACT NATIVE	

EXPERIENCE

MoveoApps

📅 11/2024 - Present 📍 Ahmedabad, India

- Developed and maintained **interactive user interfaces** using **React.js**, **Tailwind CSS**, and **JavaScript** for a real-world web application
- Implemented **responsive UI layouts** using **Flexbox** and **CSS Grid**, ensuring optimal display across all devices.
- Created reusable components (like **cards**, **tabs**, **form sections**) to enhance development efficiency and consistency.
- Gained hands-on experience with **version control (Git)** and modern frontend workflow best practices.

KEY ACHIEVEMENTS

NEW INDIA VIBRANT HACKATHON, Ahmedabad

Contributed to SSIP's Appreciate Hackathon, utilizing HTML, CSS, and ML to create innovative solutions, merging web development and data science

Tech Event – Inter-College Technical Fest

Participated in a competitive inter-college **technical event** focused on innovation and development in web technologies.
