Freelance Web Developer & Web Designer

Ahmedabad, Gujarat | May 2024 – Present

- Design and develop responsive, visually appealing websites for clients across diverse industries.
- Utilize HTML, CSS, JavaScript, and Tailwind CSS to create custom UI components and interactive features.
- Collaborate with clients to gather requirements, deliver prototypes, and implement feedback effectively. Optimize website performance and ensure SEO best practices.
- Successfully delivered multiple projects, including e-commerce platforms, business websites, and portfolio sites.

Experience:

- **May 2019 – May 2024 Raidlayer Internet P Limited** , Ahmedabad, Gujarat
- Senior Web & Frontend developer with 5+ years of experience designing and building responsive web design in the industry.
- Proficient with CSS and JS, with extensive knowledge of **Bootstrap and Tailwind CSS**.
- Notable achievements include boosting the conversion rate of an existing website by 80% with improved code and design.
- Since **May 2024**, I've been working as a **Freelance Web Developer**, helping businesses and startups bring their ideas to life with sleek, responsive, and scalable web solutions. I focus on delivering pixel-perfect designs, clean code, and seamless user experiences tailored to client needs.
- Whether I'm working with a team or independently, my goal is always the same: **to create websites that are not just visually appealing but also highly functional and optimized for performance.**

Project:

Real estate properties UK project

- Worked closely with the design to optimise usability and implement frontend.
- Developed frontend and admin panel for a real estate platform using Laravel.
- Developed custom section that can be integrated into the website.
- Excellent organizational skills including attention to detail and multi-tasking.
- It is real estate project in property details show with all functionality.
- Implemented custom sections for property listings with advanced filtering and search functionality.
