📁 Professional Summary

Dedicated and proficient **Full Stack Developer** with **2 years** of experience building high-quality web applications. Adept in creating efficient, scalable, and user-friendly interfaces using modern JavaScript technologies. Strong in app performance optimization, real-time communication (Socket.io), and cross-functional team collaboration. Seeking to contribute React expertise in a dynamic, innovation-driven team.

🔧 Technical Skills

- **Languages:** JavaScript
 - **Frontend:** React.js, Redux, HTML, SCSS, CSS (Bootstrap 5, Tailwind CSS), D3.js
 - **Backend:** Node.js, Express.js
 - **Databases:** SQL, My SQL ,MongoDB
 - **APIs:** Restful APIs, Firebase, Appwrite
 - **Tools:** Git, GitHub, Bit bucket, Jira
 - **Other:** Socket.io, App Performance Optimization, Troubleshooting, Communication & Collaboration
-

💻 Projects

Eswasthy – ES Health Enterprise Pvt. Ltd

- Implemented **real-time chat** using Socket.io between admin and users.
- Built image upload functionality with dynamic folder management.
- Managed prescription workflows, including status updates and order confirmations.
- Developed admin modules: **CRUD for categories, brands, static pages, and banners.**
- Integrated the inventory management system with the front-end e-commerce App, ensuring real-time stock updates and order fulfillment.
- Built dashboards for inventory performance analytics, generating reports on stock levels, product turnover, and sales trends to optimize inventory purchasing decisions.
- Built a system for real-time product categorization updates, enabling automatic reclassification of products based on stock, sales data, and user preferences.

Block Worker – Perfetto Solution

- Architected the app using **Next.js** and **React.js** with **server-side rendering (SSR).**
- Built secure **RESTful APIs** and integrated **JWT authentication.**
- Designed reusable Real-Time Data Management: Utilized React hooks and Context API for efficient state management and real-time updates across the application.
- components (About, Projects, Skills, Contact).
- Integrated GitHub API and handled deployment via **Vercel.**
- Automatically enforce terms between clients and freelancers: payment, milestones, and deadlines
- **Wallets:** MetaMask, WalletConnect integration
- **Frontend:** React + Ethers.js

Expense Tracker Application - Perfetto Solution

- User Authentication: Implemented secure user authentication using Firebase, allowing users to create accounts and log in to their personalized expense tracker.
 - Expense Logging: Enabled users to add, edit, and delete expenses with details such as amount, category, date, and description.
 - Categorization: Provided a range of expense categories for better organization and analysis of spending patterns.
 - Data Visualization: Integrated charting libraries (e.g., Chart.js or Recharts) to display visual reports, including pie charts and bar graphs, for better insight into spending trends.
-

Experience

React JS Developer

ES Health Enterprise Pvt. Ltd, Ahmedabad

Jan 2025 –Present

- Maintained and enhanced Eswasthy, improving performance and scalability.
- Improved admin features like real-time communication, prescription handling, and order workflows.

React JS Developer

Perfetto Solution, Surendranagar

Oct 2023 –Dec 2024

- Led full-stack development of Block Worker using **React.js**, **Next.js**, and **Node.js**.
- Focused on SSR, security, code reusability, and third-party API integration.

Trainer & React Native / Mobile Development

Shiv Computer, Surendranagar

Jan 2022 – Sep 2023

- Delivered hands-on training on HTML, CSS, JavaScript, and Bootstrap.
 - Guided students through project work and assessments.
 - Developed and deployed numerous features in a React Native mobile app, including attendance marking, member registration, and versioning system.
 - Developed modal components that fetch attendance data and present attendance data of all quick members with horizontal and vertical scrollable tables.
 - Rebuilt quick member registration and attendance UI for updated wireframes and stakeholder feedback.
 - Fixed UI/UX issues associated with the visibility of app version on splash screen and titled labels with correct CSS adjustments.
 - Resolved multiple bugs associated with form validation, UI rendering and data integrity (i.e. unique constraint error handling).
-

Education

Bachelor of Commerce (B.Com)

Gujarat University, Ahmedabad — 2018
