PROJECTS

POINTCLUB

- Developed a full-stack rewards-based web application enabling users to earn and redeem points through platform activities
- Built scalable REST APIs using Node.js and Express.js to manage users, transactions, and reward systems
- Designed dynamic and responsive UI components in Angular for an engaging user experience
- Deployed backend services on AWS EC2 and used S3 for secure asset storage
- Implemented secure login, user authentication, and role-based access controls
- Collaborated with team members in Agile sprints.
- Activity module allowing users to complete tasks, surveys, or referrals to earn points

BUSINESS INSIGHTS HUB

Business Insights Hub is an online market research platform designed for professional businesspeople. It facilitates participation in surveys and other research activities, enabling users to contribute valuable insights to various industries.

Key Functionalities:

- User Registration & Authentication: Secure sign-up and login processes for professionals.
- Survey Participation: Access to a range of surveys tailored to business professionals.
- Dashboard: User-friendly interface displaying available surveys and participation history.
- Responsive Design: Optimized for seamless use across devices.

EDGE BY INNOVATEMR

Edge is InnovateMR's proprietary project management and analytics platform designed to streamline and enhance market research operations. It offers a suite of dashboards tailored for various organizational roles, facilitating efficient project oversight and decision-making.

Key Responsibilities & Features:

- Developed different dashboards for Executives, Team Leads, and Project Managers to easily track performance and project progress
- Automated reports and alerts to reduce manual work and improve team communication
- Designed a clean and responsive user interface using Angular
