SUMMARY

As a MERN Stack Developer with 1.5 year of hands-on experience, I have successfully developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js. I possess a solid understanding of the development process, from planning and designing the frontend user interface to building scalable backend services.

EXPERIENCE

Centillion Softech Pvt (Sept - 2023 to Present)

Project - 1 (VIDESH - APNA)

Contributed to frontend development with a primary focus on React-based applications.

- Developed the frontend of an immigration service platform called Videsh Apna using React.js, designed to assist users in navigating various immigration processes.
- Built responsive, user-friendly interfaces with features that allow users to browse immigration services, track application status, and submit inquiries.
- Integrated React Hook Form for seamless user input handling and form validation.
- Managed complex state and data flow using Redux, ensuring a smooth user experience across the application.

Project - 2 (CTT - Commercial Truck Training)

Developed the frontend for Commercial Truck Training, a dynamic web application for commercial truck training.

- Integrated functionality for managing menus and events dynamically via the admin panel, enabling the application to adapt to real-time updates from the admin.
- Used React Router for seamless navigation across the platform's different sections.
- Focused on responsive design to ensure accessibility across various devices and screen sizes.

Project - 3 (Secure Gates)

Developed the backend for Secure Gates Mobile App, a solution designed to manage security for residential societies, catering to roles including security guards, chairmen, members, and builders.

- Implemented RESTful APIs using Node.js and Express.js to handle user authentication, authorization, and role-based access control.
- Integrated real-time notifications and communication features for users to report incidents and receive updates via Socket.IO.
- Collaborated with frontend developers to ensure seamless integration between the backend services and mobile application.

EDUCATION

B.E. (Electronics and Communications)

G.E.C. BHAVNAGAR

📅 06/2014 - 07/2018 📍 BHAVNAGAR - 364002

SKILLS

React Js JavaScript Node Js

HTML CSS Bootstrap

ExpressJs Git MongoDB

Azure-Board Socket.IO

STRENGTHS

A Adaptability

Quickly adapted to the sophisticated React ecosystem at Syntax Technologies, contributing to major projects within the first few months.

📦 Dedicated Learner

Consistently kept up-to-date with the latest technologies, including a proficient understanding of Mobx and MST while at Neural Networks.

PASSIONS

• Web Development

I love creating interactive, efficient, and user-friendly web applications that add value to businesses.

E Learning Coding Languages

Spending time deep-diving into new coding languages and web technologies stimulates and inspires me.
