PROJECTS

Table-Top (01/2024 - 03/2024)

- Table Top is a high-resolution, 4k-compatible Desktop application designed to display dynamic content
- Built using React.js, Node.js, and PostgreSQL for seamless data management.

HRMS (Human Resources Management System) (01/2024 - 10/2024)

- It manages all core Hr functions including employee data,leave,attendace,holiday,document and payroll processing.
- Utilized React.js ,node js ,mongoDb and Material UI for a modern and responsive user interface.

Been There (12/2024 - Present)

- Developed a responsive travel advisory platform connecting users with expert travel advisors.
- Enabled media-rich interactions including image/video sharing and real-time video consultations.
- Built backend APIs using Node.js and managed data with MongoDB, ensuring scalability and performance.
- Integrated Razorpay for secure appointment booking and payment processing.
- Deployed on AWS Amplify with real-time database and authentication handled via Firebase.
