

With over three years of front-end development experience, I specialize in cutting-edge technologies. My passion for web development started early, and I've successfully worked on diverse projects across various industries. I've honed my skills in managing all aspects of the development process, from creating dynamic user interfaces to enhancing website functionality, consistently delivering excellent results.

PROJECT SUMMARY

Internal Employee and Project Management Portal

Client: Internal Product for the working organization | **Role:** Developer

Tech & Framework: ReactJS, Python, Django, MongoDB, Tailwind CSS, MantineUI

PROFESSIONAL EXPERIENCE

Inexture Solutions LLP - Ahmedabad, Gujarat IN

Full stack developer - 1st Jan 2022 - Present

I'm a front-end developer skilled in JavaScript, React JS, Redux. I create responsive, visually appealing UIs with Tailwind CSS, and collaborate with backend teams using MongoDB and Node.js. Leveraging npm packages, I enhance UIs and introduce new features, focusing on building robust, user-centric web applications.
