Percent: 79.00%

PROFILE

Versatile Junior MERN Stack Developer with hands-on experience in building full-stack and real-time applications using MongoDB, Express.js, React, and Node.js. Skilled in developing scalable, user-centric software, integrating third-party APIs, and delivering robust frontend-backend solutions. Eager to contribute technical expertise and a collaborative mindset to a forward-thinking development team.

WORK EXPERIENCE

SSTECH SYSTEM SOLUTION Pvt Ltd 01/24 - PRESENT
Junior MERN Stack Developer

QuickChat

Tech Stack: React.js, Node.js, Express, MySQL, Socket.io, WebRTC, Firebase

- Built a real-time messaging platform with features like 1-on-1 text chat, group chat, media file sharing, and voice calling.
- Integrated Socket.io for live communication and WebRTC for peer-to-peer voice calls.
- Implemented secure user authentication using JWT and OAuth 2.0.

Driver007

Tech Stack: React.js, Typescript, Node.js, Express, PostgreSQL, Firebase, Socket.io

- Developed logistics workflows for a parcel delivery system, including job creation, driver assignment, pickup, drop-off, and completion tracking.
- Designed role-based dashboards for dispatchers and drivers to streamline operations.
- Implemented backend logic for real-time status updates, route tracking, and delivery history.

ZamFly Africa Limited

Tech Stack: React.js, Typescript, Node.js, Express, MySQL, Socket.io

- Contributed to a logistics and delivery platform for an African client.
- Assisted in optimizing backend performance and streamlining API communication between services.

Azura Transformer

Tech Stack: React.js, Typescript, Node.js, Express, MSSQL, Socket.io

- Integrated the Miinto e-commerce marketplace into the client's platform, handling order sync, inventory updates, and fulfillment workflows.
- Built modules to fetch and process third-party orders and relay fulfillment status in real-time.
- Improved data accuracy and sync reliability between internal inventory and external systems.
