

Bisht Gaurav Singh

Software Developer – React.js | Next.js

Ahmedabad, Gujarat || +91 9067360615

bisht8892@gmail.com || <https://www.linkedin.com/in/bisht-gaurav-singh-b48357219>

Professional Summary

A highly skilled **React.js developer** with **2.5+ years** of hands-on experience in developing interactive and dynamic websites. Proficient in front-end development using **React.js**, **React Hooks**, **React Query**, and **Next.js**. Adept at working with React's lifecycle methods and writing clean, reusable code to solve complex problems efficiently. Experienced in creating custom reusable React component libraries and ensuring a seamless user experience. Proficient in frontend development with a strong command of **JavaScript**, **Typescript**, **RESTful APIs**, and code versioning tools. Adept at **optimizing performance** and **mentoring junior developers** to ensure clean, efficient, and maintainable code.

Technical Skills

□ Front-end Development :

- HTML, CSS
- JavaScript
- Typescript
- React.js
- Next.js
- Redux
- Front-end Architecture
- React-query
- API Integration & RESTful Services.

Experience

- (Jul -2022) – (May- 2025) software developer
Rydot Intuit Pvt. Ltd (Ahmedabad)
- (Jan -2022) – (Jun - 2022) – Intern
Rydot Intuit Pvt. Ltd (Ahmedabad)

Projects

Virtual Building Studio : Developed and managed a VBS project system that integrates multiple modules for quotation creation, project tracking, resource management, invoicing, and timesheet logging. Streamlined operations for Oneoff and DRM projects, enabling efficient resource allocation, cost tracking, and invoice generation. Implemented detailed reporting for project progress, resource utilization, and financial performance to enhance decision-making and client relations.

- Developed application with React.js, next.js.
- Implement React-query hook for efficient fetching, caching, and updating of asynchronous data in React applications.
- Developed chart for dashboards using Highcharts, Leaflet, Apache Echarts from the frontend side.
- Developed reusable components.
- Provided technical support to junior developers.
- Reviewed pull request, ensuring code quality and providing insightful feedback for improvements.

Asia Child Neuro : Hospital Management System,(HMS) is a software designed to handle electronic medical records, laboratory tests and their results, pharmacy records etc. It helps in managing patient data efficiently so that hospitals can provide better care and services. Developed application with React.js, next.js and react-query.

- Developed frontend-end side UI based components.
- Developed reusable components.
- Create user-friendly interface to guide user with proper functionality.

Mai focus: It is an AI based project, which helps in seamless recognition of objects in real-time and sends alerts for the same when an object specified by you is detected.

- Developed application with React.js, next.js and react-query.
- Developed sensor module to show real-time alert on google map location.
- Provided technical support to junior developers.
- Reviewed pull request, ensuring code quality and providing insightful feedback for improvements.

Revel: Revel is big data platform, which mainly focus on data ingestion, data transformation, and data analytics on bulk data.

- Developed frontend-end side UI based reusable components.
- Developed Chart and dashboard with the use of react-highcharts and google map integration in react.js.

Education

- Master in Computer Application (MCA) | Gujarat Technological University (2020 – 2022)
Shri Chimanbhai Patel Institutes, Ahmedabad
- Bachelor in Commerce | Gujarat University (2017 – 2020)
National College of Commerce, Ahmedabad
