ABOUT ME

Strong in design and integration with intuitive problem solving skills. Quite proficient in Node.js, Express.js and SQL. Always keep to work on new technologies. A true team member always willing to contribute for the team. Looking to kick start a career with a reputed firm driven by technology.

WORK EXPERIENCE

Node.js Developer, Techerudite

Dec 2023 - Present

Name: Faces consent

TechStack: Node.js | Express.js | GraphQL | MySQL | Sequelize-ORM

Description: I contributed to Faces, a digital platform for managing treatment consent forms and client appointments. Using Node.js and GraphQL, I focused on designing efficient APIs for data management. Collaborating closely with frontend teams, I integrated GraphQL queries to enhance user experience, developing strong skills in Node.js, GraphQL.

Name: Tether social app

TechStack: Node.js | Express.js | GraphQL | MySQL | Sequelize-ORM | Google Maps API

Description: Developed backend services for a social travel platform where users can manage trips and residences, send friend requests, and connect with other travelers. Integrated location autocomplete and secure authentication features. Designed scalable APIs to support dynamic user interactions and data management.

Name: DateReel

TechStack: Node.js | Express.js | GraphQL | MySQL | Sequelize ORM | Google Maps API

Description: A social platform where users share their date experiences by posting mood, cost, one-line reviews, detailed descriptions, and images. Integrated Google Places Autocomplete for accurate location input. Built secure and scalable backend APIs using Node.js, Express.js, and GraphQL. Managed data with MySQL and Sequelize ORM.

Name: Bhagy chemicals

TechStack: Node.js | Express.js | REST-API | MySQL | Sequelize-ORM

Description: I contributed to backend development for the Bhagy Chemicals website, focusing on implementing and optimizing RESTful APIs. My role included enhancing functionality and ensuring smooth user interactions, utilizing REST API principles to support efficient data handling and integration.

Node.js Developer, TriState Technology

Jan 2023 - Dec 2023

Name: Salon Booking Solution

TechStack: Node.js | Express.js | REST-API | PostgreSQL | Sequelize-ORM

Description: Salon Booking is an online platform for salon appointment booking. The user can search for the salon based on the location and book an appointment for the selected service at the available time and date. Its services include hair cut for men/women, and more.
