SUMMARY

I am an innovative React Developer with a solid background in developing and maintaining responsive websites. My proficiency in modern JavaScript libraries, CSS, HTML5, and progressive web applications complements my effective communication skills and strong problem-solving abilities. My previous roles have consistently led to improved user experiences and enhanced web performance

KEY ACHIEVEMENTS

 Optimized Web Performance Improved website load time by 30% using efficient ReactJS database queries.	 Enhanced Application Stability Reduced system downtime by 40% through proactive monitoring and issue resolution.
 Team Leadership Development Mentored 15 junior developers, raising team productivity by 25%.	 Customer Satisfaction Enhancement Increased customer satisfaction by 20% with tailored web applications.

EXPERIENCE

Dy. Manager

Navadhan Capital Pvt. Ltd

06/2022 Present

- Skilled at working independently and collaboratively in a team environment
- Developed custom web applications tailored to specific client needs, increasing customer satisfaction
- Designed visually appealing interfaces aligning with company branding guidelines, enhancing overall user satisfaction
- Reduced load times with efficient database queries using modern frameworks such as ReactJS
- Enhanced user experience by designing and implementing responsive web applications
- Collaborated with cross-functional teams to develop innovative solutions for complex client requirements
- Delivered timely updates on project progress, ensuring effective communication among team members and stakeholders
- Designed web apps using continuous integration, continuous delivery (CI/CD) design models

Senior Software Developer

Vrixty Pty. Ltd

06/2021 - 05/2022

- Mentored junior developers, providing guidance on best practices and coding techniques for improved productivity
- Delivered high-quality code on time by effectively managing project timelines and prioritizing tasks accordingly
- Trained new developers and programmers on company standards for design and review
- Coded websites using HTML, CSS, JavaScript, and jQuery languages
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, AJAX, and JSON coding

Associate Developer

VNU Software

07/2019 - 05/2021

- Resolved critical defects in existing applications, improving overall stability and end-user satisfaction
- Actively participated in sprint planning meetings, estimating task complexity and effort to ensure successful project delivery within set timelines
- Enhanced application performance by identifying bottlenecks and optimizing code for better scalability
- Reduced system downtime by proactively monitoring application health and addressing potential issues before they impacted users
- Performed unit testing of web applications and troubleshoot issues to deliver optimal browser functionality
- Oversaw back-end development using PHP to maintain website integrity

EXPERIENCE

Software Developer

Limbic Root

12/2017 - 06/2019

- Improved software efficiency by troubleshooting and resolving coding issues
- Saved time and resources by identifying and fixing bugs before product deployment
- Updated old code bases to modern development standards, improving functionality
- Collaborated with cross-functional teams to deliver high-quality products on tight deadlines

Software Developer

Macron Technocrats

03/2014 - 11/2017

- Responsible for development and unit test
- Wrote the code for given task
- Understand the requirement from lead and develop the functionality
- Contributed to a positive team environment through effective communication, problem-solving, and collaboration skills
- Worked in both HTML and CSS environments, choosing each protocol, where appropriate, for best results

EDUCATION

B.Sc.I.T

Saurashtra University

09/2009 - 06/2012

SKILLS

Agile	Ajax	API Design	CodeIgniter	CSS	Docker	Git	HTML	Interface Design
JavaScript	jQuery	JSON	Mockups	PHP	React	Shopify	Unit Testing	WordPress
Microservices	Algae	Responsive Web
