**Address:** 12 Patnipura Square  
, Indore

### EDUCATION

**Bachelor of Computer Application | 2021-2024**

P.M.B. Gujrati Science College(DAVV)

### WORK EXPERIENCE

**TechnoToil | June 2024 - Present**

**Node.js Developer**

- Collaborated with a team to develop a web application using Node.js, Express.js, NestJS and MongoDB.
- Utilized MongoDB for data storage and management, ensuring efficient application data handling.
- Gained practical skills in backend development, including server-side programming with NestJS, Node.js, Express.js and database management with MongoDB and MySQL.
- Designed and implemented RESTful API and handled backend logic for user authentication, role-based access control and data handling.

### PROJECTS

**Tunnel Ground**

- Developed and maintained RESTful API to handle user authentication, role-based access control.
- Integrated Razorpay for handling event and slot booking payments, ensuring smooth and secure transactions.
- Utilized Swagger for interactive API documentation, making endpoints easy to understand and test for all stakeholders.
- Built social interaction features like follow/unfollow, likes, comments, and user suggestions, enabling a community-like experience similar to Instagram.
- Applied middleware and modular controllers to handle business logic cleanly and maintainably.
- **Technologies used:** JavaScript, Node.js, Express.js, MongoDB

**BharatSey**

- Implemented secure user login, signup middleware to ensure protected routes for users and administrator, enabling secure operations like review submission.
- Developed and maintained RESTful APIs to support core functionalities like order placement, order tracking, and order history.
- Implemented a Review & Rating System across multiple modules (products, sellers, delivery experience) to collect user feedback and improve platform trust.
- Wrote modular controllers and route logic to ensure clean code and easy maintenance.

**Technologies used:** NestJS, MySQL, Node.js

---

### SKILLS & TOOLS

**Technical Skills:** JavaScript | TypeScript | Node.js | NestJS | Express | MongoDB | MySQL

**Additional Tools:** Postman | GitHub | MongoDB Compass | Swagger
