-

PROFESSIONAL EXPERIENCE

Bluepixel Technology LLP | Ahmedabad, GJ

Junior QA Engineer | Aug-2024 – Present

- Performed manual testing across Android, iOS, and web platforms.
- Focused on BLE and NFC-based app testing for robust and secure connectivity.
- Logged defects and test case results, working closely with the development team.
- Validated UI responsiveness and app performance across multiple devices.
- Execute manual test cases for mobile and web applications.
- Conduct functionality, regression, and usability testing to ensure a high-quality user experience.
- Collaborate with developers to troubleshoot issues and track them using Google Sheets.
- Mentor and train QA interns on manual testing processes and best practices

Key Projects :

- BLE App :- Validated Bluetooth scanning and pairing features.
- Music Player App :- Tested playback functions and performance under load
- Social App :- Verified account sync, messaging, and media sharing features.

- Fitness App :- Validated data integration with wearables and UI consistency.
- WordPress Website :- Ensured responsive layout and core features on various devices
- Industrial Economy Admin Panel :- Tested dashboards, reports, and user management tools.
- NFC App :- Verified NFC read/write operations across Android devices.
- AutoDrivemate App :- Tested features related to vehicle tracking, fuel logs, and driver behavior analytics.
- Pill Reminder App :- Tested user and admin flows across Super Admin, Clinic Admin, and Physician Admin Panels. Verified scheduling, role-based access, push notifications, and reporting.
- Alcobloc App:- Performed end-to-end testing on alcohol tracking and restriction features. Validated user alerts, BLE device pairing, and usage analytics.
- Web Admin Panel:- Ensured functionality of user management, analytics dashboards, and access controls
- Teabook App:- Verified tea shop inventory, transaction records, analytics, and daily reporting functionalities across mobile and web platforms.

MakeIn Technology | Ahmedabad, GJ

QA Trainee | Jun-2024 – Aug- 2024

- Gained practical experience in QA fundamentals, STLC, and test documentation.
- Conducted functional and UI testing for demo and client-based projects.

Key Projects :-

- Sauce Demo:- Validated cart workflows and secure checkout.
- Tea Diary App:- Tested billing and analytics for tea vendors.
- Shop Clues:- Checked product filtering, sorting, and payment gateway integration.

EDUCATION

Bachelor of Computer Applications (BCA)

Lokmanya College of Computer Applications, Ahmedabad

Sep 2020 – May 2023
