Professional Summary

Dedicated manual tester with experience in writing and executing test cases, documenting results, and ensuring software quality. Skilled in Jira, Zephyr and Postman, with a keen eye for detail. Currently learning automation testing to improve efficiency.

Professional Experience

Software Test Engineer

May 2024 – Present

Targus Technology (Client - Sun Pharma)

- Reviewed requirements and created detailed test scenarios and manual test cases.
- Performed functional, regression, and UI testing for web-based applications.
- Logged and tracked bugs using JIRA, and collaborated with developers for resolution.
- Conducted API testing using Postman to validate request-response accuracy.
- Maintained test documentation including test case results and defect reports.

DM Trainee QA

Feb 2024 – May 2024

Magic EdTech (Contract)

- Assisted in QA testing for various web applications.
- Ensured optimal functionality of educational platforms through comprehensive testing and feedback.
- Collaborated closely with developers and project managers to enhance quality and resolve issues.

PROJECTS

Medhas User Access Management Application

Current

- Performed manual testing on Medhas, ensuring smooth user authentication and access management.
- Tested login, account creation, modification, deactivation, and approval workflows for role-based access.
- Validated UI, functional accuracy, security compliance, and error handling across the application.
- Logged defects, collaborated with developers, and ensured issue resolution using JIRA.

Online Food Ordering Portal | HTML, CSS, JavaScript

2024

- Created a website for online food ordering where users can browse restaurants, select dishes, and place orders.
- Utilized HTML, CSS, and JavaScript for a responsive and interactive user experience.
