Pune, Maharashtra

PROFESSIONAL SYNOPSIS:

4+ years of hands-on experience in Software Testing including **Manual testing, Automation testing, Database testing** and **API testing** across diverse domains, including Healthcare, Education, HRTech, Travel & Tourism, Telecom. Proven ability to deliver high-quality testing solutions and drive product excellence.

- Strong knowledge of **SDLC, STLC, Defect lifecycle** and **Agile model** with **SCRUM** framework.
- Experience in performing **Functional Testing, Smoke Testing, Regression** and **Black Box Testing**.
- Proficient in creating and executing **Test Scenarios, Test Cases**, etc. and participating in **Agile ceremonies**.
- Performed automation testing using **Selenium** with **TestNG** framework. Familiar with use of **Maven**.
- Expertise in **API Testing** using **Postman**, testing various API methods like GET, POST, PUT, and DELETE to validate different APIs.
- Well versed with the **Execution of Test Scripts** on Google Chrome, Firefox, and IE. Knowledge of handling Popups, Alerts.
- Good understanding of **JAVA** and **OOPs concepts**, including Encapsulation, Inheritance, Abstraction, and Polymorphism.
- Proficient in **Database Testing**, including writing and executing **SQL queries** to validate data and backend functionality.
- Exceptional attention to detail that consistently enables the efficient identification, **Reproduction**, and **Reporting of Defects**, ensuring software excellence.

Key Skills:

- **Manual Testing:** Functional, Regression, Smoke
- **Bug Tracking:** Azure DevOps, JIRA, Trello, Notion
- **Automation Testing:** Selenium WebDriver, TestNG
- **API Testing:** Postman
- **Database Testing:** MS SQL Server
- Java, HTML, CSS

WORK EXPERIENCE

Organization	: GROOVY TECHNOWEB PVT. LTD. NADIAD, GUJARAT	<i>Jan 2024 - Present</i>
Designation	: Sr. QA Engineer Fulltime	
Organization	: PS INTERNATIONAL INFOSERVICES PVT. LTD. PUNE	<i>Dec 2022 - Jan 2024</i>
Designation	: Software Test Engineer Fulltime	
Organization	: EMMERSIVE INFOTECH PVT. LTD. PUNE	<i>Nov 2019 - Dec 2022</i>
Designation	: QA Engineer and Jr. E-learning Developer Fulltime	

EDUCATION:

Satara College of Engineering & Management, Satara.
(Shivaji University, Kolhapur)

Aug 2016 – Mar 2019

Bachelor of Engineering in Computer Science

Aggregate: - 64.26%

ROLES AND RESPONSIBILITIES:

Sr. QA Engineer | Groovy Web Pvt. Ltd., Nadiad, Gujarat

Responsibilities:

- Collaborate with product owners, stakeholders to understand business requirements, prepare test cases from features and user stories, and upload them to Azure DevOps for tracking.
- Perform web service testing with Postman (GET, POST, PUT, DELETE) to validate API functionality and performance.
- Conduct functional testing, retesting, regression, integration, and system testing to ensure quality standards.
- Log, track, and manage defects in Azure DevOps, ensuring timely resolution and continuous quality improvement.
- Utilize Azure DevOps for bug tracking, test planning, and project management to improve process efficiency.
- Implement QA strategies and methodologies, driving continuous improvements and project success.
- Deliver client demos, participate in scrum DSM meetings and retrospectives, and collaborate with business teams on system redesigns.
- Ensure the system meets business requirements and supports organizational goals.

PROJECTS:

I have worked on a wide range of projects across various domains, including Healthcare, Education, HRTech, Travel & Tourism, and Telecom. Currently, I am engaged in a large-scale Healthcare domain project for **DM Clinical Research Org**, based in Houston, Texas.

1) DM Clinical Research (Healthcare Domain), Houston, Texas, US

Applying the QA efforts for a critical healthcare project involving six distinct websites. My responsibilities encompass manual, API, UI automation and database testing to ensure quality across these platforms:

1. **ATOM** – Advanced Trail Optimization & Management, Users create leads and opportunities for newly registered trials from parent drug companies.
2. **ComTrak** – Communication and Tracking, Users validate leads, create patient slots, track interactions, assign patients to recruiters, and manage communication with patients through calls, messages, and emails (AI-assisted and manual).

In this role, I am responsible for test planning, developing and executing test cases, managing defect tracking, and driving automation and API testing efforts to ensure the delivery of high-quality, reliable websites across these platforms.

2) UKVI/Annaizu (HR Tech Domain), London, UK

Led QA activities for the Annaizu HRTech platform designed for seamless Home Office Sponsorship Compliance, Annaizu combines robust functionality, an intuitive interface, and effortless usability to help businesses streamline workflows and boost productivity.

I am responsible for test planning by analysing software requirements, developing and executing test cases, managing defect tracking, and applying testing efforts like to ensure the delivery of high-quality, reliable websites. To validate different modules of the application before releasing them to the production.

SOFT SKILLS:

- Good verbal and written communication skills and strong collaboration & teamwork skills
- Ability to quickly adapt to new environments, technologies, work processes, & flexibility
- Strong analytical problem-solving skills to identify issues, evaluate alternatives & implement effective solutions
- Good interpersonal skills and great multitasking skills to manage multiple responsibilities simultaneously

CERTIFICATIONS:

- **Basics of Software Quality Assurance** - (Issued by Mind Luster)
- **Testflix - Worlds's Biggest Virtual Software Testing Conference** - (Issued by The Test Tribe)
- **Certified in Manual Testing Basic** - (Issued by CareerNinja)

PERSONAL DETAILS:

- **DOB** : 03rd May 1995
- **Nationality** : Indian
- **Language Known** : English, Hindi, Marathi
- **Current Location** : Pune, 411035
