

Jyoti Ranjan Parida

QA Engineer

✉ paridajyotiranjana4@gmail.com ☎ 9853497192 📍 Lunkad Sky Station Viman Nagar,Pune

QA Engineer with 2.8 years of hands-on experience in testing Android, iOS, and Web applications, backed by a strong grasp of SDLC and STLC methodologies, leveraging modern testing techniques and tools to ensure product quality. Known for selecting the Right tools to boost efficiency and consistently raise performance benchmarks through strategic QA practices.

Professional Experience

11/2023 – present
PUNE, India

QA Engineer, Conmove.io

- Conducted comprehensive software testing, including functional, system, and regression tests, to identify bugs and ensure application quality.
- Develop test plans, strategies, and test cases based on functional and non-functional requirements.
- Utilised ClickUp to meticulously track, report, and manage defects throughout the software development lifecycle.
- Facilitated user acceptance testing sessions with clients, gathering feedback for product improvements before final release.
- Maintained up-to-date knowledge of industry trends, tools, and best practices in quality assurance to continuously improve testing processes.
- Applied TestNG for effective test execution and reporting, enhancing test reliability and maintainability.
- Designed and implemented automated test scripts using Selenium WebDriver with Java, cypress and Playwright accelerating regression cycles and reducing manual effort by 60%.
- Actively participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives as part of Agile development teams, contributing to continuous improvement.

08/2022 – 08/2023
Mumbai, India

Software Test Engineer, Zest Technologies Pvt. Ltd.

- Coordinated exploratory testing with developers and external testers to proactively assess viability.
- Member of agile team, working closely with Product Managers, Business Analyst, Operation Team, and Dev Team to understand the product requirements and user stories. Carried out automated and manual test execution, delivering relevant test coverage.
- Executed mobile application testing on various platforms iOS, Android to guarantee compatibility and optimal performance.
- Utilised JIRA for bug tracking and project management, streamlining communication and task allocation within the testing team.
- Extensively performed manual testing process on Android and website to ensure the quality of the software.

Education

08/2016 – 09/2020
Bhubaneswar, India

B.Tech Mechanical, Eastern Academy of science And Technology
