

# CURRICULUM VITAE

**Mr. Sandip Ramnath Thitame**

**Phone:** 9156749540

**Email:** sthitame7@gmail.com

**LinkedIn:** [www.linkedin.com/in/sandip-thitame-90b147173](https://www.linkedin.com/in/sandip-thitame-90b147173)

---

## OBJECTIVE

To obtain a challenging position in a reputable organization where I can utilize my skills in automation and manual testing to contribute to continuous growth and advancement.

---

## ACADEMIC EDUCATION

- **Bachelor of Engineering (Electronics)** – Pune University (2019) – **71.43% (First Class with Distinction)**
  - **Diploma in Electronics & Telecommunication** – Mumbai University (2015) – **69.19% (First Class)**
- 

## PROFESSIONAL SKILLS

- **Automation Testing:** Selenium WebDriver, TestNG, Cucumber (BDD)
  - **Manual Testing:** Functional, Regression, Smoke, Sanity, Mobile App Testing
  - **Programming Language:** Java
  - **Frameworks:** Page Object Model (POM), Data-Driven, Hybrid Framework
  - **API Testing:** Postman
  - **CI/CD Tools:** Jenkins
  - **Version Control:** Git, GitHub
  - **Build Tool:** Maven
  - **Test Management & Bug Tracking:** JIRA
  - **Additional Areas:** Web Accessibility Testing, Web Analytics Testing
- 

## WORK EXPERIENCE

**Senior Software QA Engineer**

**Cherise India Pvt. Ltd. (CIPL), Wagholi, Pune**

**Duration:** April 1, 2024 – Present

### Roles and Responsibilities:

- Collaborated with stakeholders to gather and analyze project requirements and define both manual and automation test scenarios.
  - Designed and developed automation test scripts using Selenium WebDriver with Java, aligned with project goals and quality standards.
  - Built and maintained reusable and scalable automation frameworks such as Page Object Model (POM), Data-Driven, and Hybrid Frameworks.
  - Performed test execution using TestNG/JUnit, generated detailed test reports, and analyzed test outcomes for defect identification.
  - Executed cross-browser testing using Selenium Grid to ensure compatibility across environments.
  - Automated REST API testing using Postman for backend data validation.
  - Created and maintained test plans, test cases, and test documentation to support quality assurance and continuous process improvement.
  - Conducted functional, regression, smoke, and performance testing to ensure software meets business and technical requirements.
  - Logged, tracked, and managed defects using JIRA, working closely with developers to ensure timely resolution.
  - Managed and versioned test scripts using Git/GitHub, enabling efficient collaboration with development and QA teams.
  - Conducted demonstrations of automation test executions and project functionality to clients and stakeholders for transparency and feedback.
-

## Software QA Engineer

Hiotron India Private Limited, Viman Nagar, Pune

Duration: November 4, 2020 – March 31, 2024

### Roles and Responsibilities:

- Collaborated with business analysts and stakeholders to understand system requirements and define effective test strategies.
- Developed and executed automation test scripts using Selenium WebDriver with Java for web-based applications.
- Designed and maintained scalable automation frameworks including Page Object Model (POM), Data-Driven, and Hybrid Frameworks.
- Presented automation test execution results to stakeholders through structured demonstrations and walkthroughs.
- Created and reviewed comprehensive test scenarios and test cases to ensure robust test coverage.
- Performed cross-browser and multi-device testing to validate application compatibility across environments.
- Conducted end-to-end testing to ensure seamless functionality across integrated modules.
- Prepared and maintained the Requirement Traceability Matrix (RTM) for mapping requirements to test cases.
- Performed REST API testing using Postman to verify backend services and data integrity.
- Identified and reported potential security vulnerabilities, contributing to overall application safety.
- Generated detailed test execution reports and shared documentation with internal teams and stakeholders.
- Logged and tracked defects using JIRA, ensuring clear communication and timely resolution of issues.
- Re-verified fixes and conducted regression testing to confirm stability after changes.
- Executed sanity testing post-deployment to validate core functionalities.
- Prepared and published release notes outlining new features, fixes, and updates for each release cycle.

---

### COMPUTER LITERACY

- **Software & Tools:** MS Office Suite (Excel, Word, PowerPoint), Eclipse, Postman, JIRA, Git, Jenkins, Maven
- **Platforms:** Windows, Firefox, iOS, Linux, Android.
- **Browsers & Platforms:** Chrome, Firefox, Edge, Safari

---

### ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Completed **Professional Software Testing Specialist (PSTS)** course from Squad Infotech Pvt. Ltd., Pune.
- Completed a **one-week IoT for Smart Cities** training conducted at AVCOE, Sangamner by OS3 Infotech Pvt. Ltd., Mumbai.
- **4th Prize winner** in a National Level Project Competition.

---

### PERSONAL DETAILS

- **Local Address:** Swapnapurti Apartment, Bakori Fata, Wagholi, Pune, 412207.
- **Permanent Address:** A/P: Sawargaon Tal, Sangamner, Dist.: A. Nagar, 422605.
- **Date of Birth:** 12th May 1994
- **Gender:** Male
- **Marital Status:** Married
- **Hobbies:** Driving, playing indoor & outdoor games, watching Tom and Jerry.
- **Languages Known:** Marathi, Hindi, and English.

---

### DECLARATION

I hereby certify that the above information is true and accurate to the best of my knowledge.
