- Using Selenium WebDriver, Standalone project, and Maven project

Project Description: NLC

Developed and maintained a comprehensive school management system platform for teachers, students, and counselors. Managed bug reports, ensuring timely resolution and system optimization.

Created detailed test cases to validate system functionality and performance across various user scenarios.

Developed user manuals to provide clear instructions and support for system usage.

Conducted functional testing to identify and address defects, ensuring a seamless user experience.

INTEREST

Writing, Book Reading

LANGUAGE

Hindi

English

CERTIFICATE

Python and Full Stack Web Developer
(03/2022 - 09/2022)

Frontend Fundamental (03/2020 -
05/2020)

WEB APPLICATION CLONE PROJECT

SPOTIFY CLONE

- A web development project named
Spotify clone using HTML, CSS and
JAVASCRIPT

FACEBOOK CLONE

- A web development project named
Facebook clone using HTML, CSS and
JAVASCRIPT

BOOK MANAGEMENT SYSTEM

GUI based Bookshop application
using Python. In this application
one can add/delete
/update/search books .

TRAINING-AUTOMATION

Selenium - Developed and executed
automation test suites using Maven for
login, signup, customer creation, sale
order creation, and POS order
placement processes.

Key Skills Demonstrated:

- Bug Tracking and Management
- Test Case Development and Execution
- User Manual Creation
- Functional Testing
- Automation Testing
