- Core Competencies:**Test
Planning, Defect Tracking,
Cross-Browser Testing, API
Validation, Agile
Methodologies

RAHUL RABADE

QA ENGINEER

PROFILE

Results-driven and quality-focused QA Engineer with 3.2 years of hands-on experience in manual testing of complex ERP systems and mobile applications. Proven success in identifying high-impact bugs early in the development cycle, reducing production defects by 30%, and accelerating release timelines. Adept in test planning, database validation (SQL), and API testing with Postman; currently enhancing skills in automation testing. Committed to continuous improvement and delivering exceptional user experiences.

WORK EXPERIENCE

- VasyERP Solution Pvt Ltd, Ahemadabad**

Quality Assurance Executive

2023 - PRESENT

- Roles and Responsibilities:**

- Designed and executed 500+ test cases across 5 major ERP/POS modules, improving test coverage by 40%.
- Identified and logged over 150 critical defects, directly contributing to a 25% reduction in post-release issues.
- Mapped test cases to user stories for complete traceability, enhancing QA documentation and audit compliance.
- Validated backend data using SQL queries, ensuring 100% accuracy in critical financial and inventory modules.
- Collaborated in daily Scrum calls to provide updates, leading to faster issue resolution and sprint alignment.
- Played a key role in testing image-based POS systems, improving visual accuracy and user navigation.

- Key Projects**

- VasyERP Web & Mobile Platform – QA for full ERP suite handling inventory, POS, loyalty programs, GST returns, etc.
- VOrder App – Improved order accuracy by 35% by rigorously testing B2B order management and sync features.
- Bajrang Supermarket POS – Reduced customer checkout time through rigorous testing of smart cart/self-ordering modules.
- Chhaswala ERP Project – Ensured smooth order flow between franchise and head office through end-to-end scenario testing.

- **360 Degree Cloud Technologies Pvt. Ltd, Remote**

Quality Analyst

07/03/2022 - 09/01/2023

- **Roles and Responsibilities**

- Reduced regression testing time by 20% through optimized test case reuse and prioritization strategies.
- Validated complex SMS automation workflows, resulting in improved campaign delivery accuracy (95%+).
- Executed API testing using Postman, uncovering critical integration bugs across 3 Salesforce-based applications.
- Created and delivered daily observation and validation reports to stakeholders, enhancing communication and traceability.

- **Key Projects**

- 360 SMS App – Tested bulk texting features, ensuring 99.9% uptime and reliable message delivery across Salesforce environments.
- 360 Degree Cloud Marketing Website – Identified UI/UX inconsistencies that improved lead conversion rates post-release.

- **Certifications**

- Salesforce Certified Administrator – Salesforce (2023)
- API Testing With POSTMAN Tool– Udemy (2024)

- **Interest/Hobbies**

- Solving logical puzzles and learning AI tools
- Reading tech blogs
- Continuous upskilling in QA methodologies and tools

- **Declartion**

I hereby declare that the above written particulars are true to the best of my knowledge and belief.
