Objective

To secure an innovative position in the field of software development and to make the optimum use of my strength and capabilities to get the best result and to contribute the maximum share in the success journey of the organization irrespective of its size without any of my selfishness | will contribute my best towards the respective organization.

Experience

- Design'N'Buy** May 2023 - May 2024
Magento 2 Developer
Dedicated and experienced Magento Backend Developer with a proven track record of creating and maintaining robust ecommerce solutions. Proficient in PHP, MySQL, and Magento development, I have a deep understanding of backend architecture and best practices. Adept at optimizing website performance, implementing security measures, and customizing functionality to enhance user experiences.
- Techtic Technolabs** May 2024 - Present
Magento 2 Developer
I have extensive experience in developing custom modules and maintaining projects, including creating new functionalities tailored to client requirements. I am adept at setting up servers from scratch for new Magento 2 installations, ensuring a seamless deployment process. My strong debugging skills enable me to efficiently identify and resolve issues, contributing to the overall stability and performance of the systems I work with.
