Work Experience

Brady Company India Pvt. Ltd.

Bangalore

Magento Developer Intern

June 2025 – Present

- Customized Magento 2 modules and themes for *pdchealthcare.com*, enhancing storefront functionality.
- Performance Optimization:** Optimized product/banner images using WebP and compression, achieving a **40% reduction** in size and faster page loads.
- Implemented PDP (Product Detail Page) enhancements and applied critical security patch updates.
- Configured WordPress plugins and optimized site speed for auxiliary web properties.
- Acted as **Sprint Champion** (Sept 2025) for consistently delivering key improvements within timelines.
- Assisted in CI/CD deployment activities by triggering and monitoring AWS CodePipeline builds.

JSpiders

Bangalore

Software Developer Trainee (Java Full Stack)

2024 – 2025

- Completed intensive hands-on training in Core Java, Advanced Java, SQL, and Spring Boot.
- Developed scalable, database-driven applications using MVC architecture and RESTful services.

Key Projects

local.magento2.com

E-Commerce Website

Magento 2 & PHP

Developed a customized e-commerce application featuring a comprehensive product catalog, optimized cart flow, checkout integration, and custom admin panel configurations.

Web App

Real-Time Weather Application

JavaScript & API

Built a dynamic web application to fetch and display real-time weather data using external APIs, featuring responsive UI updates based on user location input.

College Project

Social Media Dashboard

Web Technologies

Created an interactive dashboard to display user analytics and manage activity logs with dynamic UI components.

Education

Government Engineering College West Champaran

Bettiah, Bihar

B.Tech in Civil Engineering, CGPA: 7.71

Dec 2020 – Aug 2024

Achievements & Volunteering
