Projects:

CRO Website: Fully customizable WordPress theme built using custom **HTML/CSS/Bootstrap** and **ACF**, featuring dynamic blog fetching with **AJAX and jQuery**

Moodle x WordPress: Implemented seamless integration between **Moodle LMS and WordPress**, enabling unified login, course embedding, and synchronized user workflows.

WordPress Multisite with Laravel SSO: Built a WordPress Multisite setup with Single Sign-On (SSO) connected to a Laravel backend, supporting centralized authentication and user management.

Experience:

Wappnet Systems Pvt. Ltd. | 2024 – Present

Associate Software Developer | Software Trainee

*Delivered 15+ WordPress projects, including 5+ **custom WordPress themes** using **HTML, CSS (Bootstrap/Tailwind), jQuery, ACF, and AJAX**. Skilled in **Elementor, Divi, and Oxygen Builder** for custom layouts and responsive UI/UX. Developed **custom Gutenberg blocks** with the **Sage framework, Blade, and SCSS**. Experienced in **custom plugin development, API integration (WordPress ↔ Laravel), third-party service like Moodle, Stripe integration, and form customizations**. Implemented **security optimization, SEO optimization**, and performance best practices. Also built **custom Shopify themes** with **custom sections** and tailored storefront functionality.*
