Backend

PHP, Laravel, REST APIs, Swagger/OpenAPI, Eloquent ORM, Queue Workers, MVC, Repository Pattern, Spatie packages

Frontend

Vue.js, Laravel Livewire, JavaScript, Tailwind CSS, WireUI, FluxUI

Integrations

Magento 2, Stripe Payments & Webhooks, Facebook Conversion API, SendGrid, Mailgun

Search & Database

MySQL, Laravel Scout, Meilisearch, Query Optimization

DevOps & Infrastructure

Docker, CI/CD, FileZilla/cPanel, AWS (EC2, S3, CloudFront, Elastic Beanstalk), Nginx, Supervisor, Kubernetes (Coder)

ABOUT ME

Senior PHP/Laravel Developer with 6+ years of experience building scalable web applications and API-driven platforms. Specialized in backend architecture, RESTful API development, and system integrations including Magento-Laravel, Stripe payments, and third-party services.

Experienced working across the full development lifecycle with Vue.js, Livewire, and modern DevOps workflows using Docker, Kubernetes-based environments, and CI/CD pipelines.

WORK EXPERIENCE

Feb 2025 - Present

SENIOR LARAVEL DEVELOPER

Salecto India / Zenvelop Technologies Private Limited | Ahmedabad

Leading backend development for scalable Laravel applications and API-driven platforms. Designed RESTful APIs, database schemas, and Magento-Laravel integrations supporting complex e-commerce workflows. Implemented search using Laravel Scout and Meilisearch while building frontend features with Vue.js, Livewire, and Tailwind CSS. Worked within environments using Docker and Coder Workspace (Kubernetes) alongside CI/CD pipelines.

Nov 2023 - Jan 2025

SOFTWARE ENGINEER

Wappnet Systems Pvt. Ltd. | Ahmedabad

Developed backend services and RESTful APIs using Laravel and MySQL for business applications. Implemented repository-based architecture and documented APIs using Swagger/OpenAPI. Built admin systems with Laravel Nova, Filament and implemented roles-permissions and activity logging using Spatie packages. Integrated AWS S3 for media storage and monitored production applications using Laravel Horizon and Telescope.

Nov 2019 - Aug 2023

SENIOR PHP/LARAVEL DEVELOPER

Sprigstack | Ahmedabad

Developed and maintained Laravel-based web applications and backend systems across multiple client platforms. Implemented RESTful APIs, Stripe payment integrations with webhook processing, Facebook Conversion API tracking, and transactional email services using SendGrid. Managed deployments and media delivery using AWS EC2, S3, CloudFront, and Elastic Beanstalk while mentoring junior developers and improving system performance.

Tools & Admin Panels

Git, Bitbucket, Laravel Horizon,
Laravel Telescope, Laravel Nova,
Filament, Statamic CMS

PERSONAL DETAILS

Date of Birth	13 August 1999
Nationality	Indian
Marital status	Single

**Jul 2019 -
Oct 2019**

PHP DEVELOPER

Shiv Technolabs Pvt. Ltd. | Ahmedabad

Developed REST-style APIs using Core PHP for a carpooling application, implementing backend logic and supporting core features such as user management and ride-related workflows.

PROJECTS

PanelHive

Event management platform enabling users and administrators to manage events, bookings, and ticket tracking. Built using Laravel and MySQL. Implemented Stripe payment processing with webhook handling and integrated SendGrid for email notifications and event communications.

MarketWagon

Online farmer’s market platform enabling farmers to sell products directly to customers. Backend developed using Laravel and Livewire supporting product management, order workflows, and customer interactions.

Pharmacy Order Management

Developed a pharmacy order management system with role-based access control for Admin, Staff, and Driver roles. Implemented patient management, refill workflows, and order tracking using Laravel and Filament admin panel.

Pub2Play

Developed a pub management platform supporting cooperation partners, location partners, and users. Built backend APIs using Laravel and implemented a Vue.js frontend for bookings, games, and reservations. Used Laravel Nova for administration and Laravel Telescope for debugging and monitoring.

Calculators Project

Developed Roof, Gutter, and Click Step calculators using Laravel and Livewire with real-time calculations. Built a Filament admin panel for managing dealers, stores, pricing, and users. Implemented Magento product synchronization through REST APIs and custom Artisan commands. Added multi-language support, PDF export, iframe embedding, and Mailgun integration for transactional email delivery.

Salestool Project

Developed a Magento-integrated product management platform using Laravel and Livewire. Implemented REST APIs to synchronize product data, pricing, and attributes between Magento and internal systems. Built advanced pricing logic including discounts, margins, and multi-currency support (DKK/SEK). Created a Filament admin panel for managing users, product attributes, and currency rates.

SUMMARY

Seeking a Senior PHP Developer role where I can apply my experience in building scalable web applications, API-driven systems, and complex system integrations.
