PROJECTS

School Management

Principal / School Head

Oversees the entire school's academic and administrative activities, monitors performance, and makes key decisions.

Teacher

Manages classes by taking attendance, giving assignments, teaching lessons, and evaluating student performance.

Student

Accesses learning materials, attends classes, completes assignments, and views results.

Technology:-Php,MySQL, HTML, CSS.JavaScript.

IdealInverst

Idea Invest is a platform where users share their ideas and vendors review, like, and discuss them. When a vendor is interested, they collaborate with the user to develop and implement the idea.

Technology:- PHP, MySQL, CSS, JavaScript, HTML.

ERP project

This ERP system integrates key business operations into a single platform. It includes modules for managing clients, suppliers, products, stock, and warehouses. The accounting module handles orders, credit/debit, invoices, and pre-purchase transactions. The system also features an alarm monitoring module for fire, gas, door, and power alerts with real-time notifications. Additionally, the CRM and employee management modules support user and partner registration, attendance, holidays, leave, salary, and employee policy management. Overall, the ERP provides a complete solution for business, finance, inventory, safety, and HR operations.

Technology:-PHP, PostgreSQL, HTML, CSS, JavaScript, XML.

Salecto

Salecto Project is an information website that provides simple and useful details about its topic.

Technology:-WordPress, CSS, JavaScript, jQuery.

Urhandleren

A WordPress project using Woo Commerce for online watch sales.

Technology:-WordPress, Woo commerce, CSS, JavaScript, jQuery.

top-homesecurity

This Project is an information website that provides simple and useful details about its topic.

Technology:-WordPress, CSS, JavaScript, jQuery.

Adminportal

The admin portal is built using the Admin LTE theme and customized in CodeIgniter. It includes modules related to employee management (HRMS).

Technology:-CodeIgniter, CSS, JavaScript, jQuery.

TNCG

This Project is an information website that provides simple and useful details about its topic.

Technology:- html, CSS, JavaScript, CodeIgniter [Http://tncg.in](http://tncg.in)

Orei

Orei is a US-based company (Illinois) that makes audio-video (AV) hardware.

Their products include HDMI splitters, switches, extenders, matrixes, and video wall controllers.

They also offer AV-over-IP solutions (called "To Vi") — this lets you send HDMI + audio + control signals over standard Ethernet.

Technology:-Shopify, CSS, JavaScript, jQuery.

Goodsfulfill

Managed a Shopify store using Goodsfulfill to source and sell electronics (phones, cameras, tablets).

Integrated app for automated product import, order processing, and supplier fulfillment.

Optimized workflows to ensure timely shipping, product quality, and customer satisfaction.

Technology:-Shopify, CSS, JavaScript, jQuery.

Global shipment secure

Developed a Shopify app to provide shipment insurance for e-commerce stores.

Guaranteed 100% refund or replacement for lost or damaged shipments.
Integrated real-time tracking and automated claims processing.
Enhanced customer trust and reduced financial risk for store owners.
Technology:-Codeigniter, CSS, JavaScript, jQuery.

Results Wellness Lifestyle (RWL)

Developed and maintained a fitness and wellness platform aimed at promoting healthy lifestyle habits.
Implemented features for tracking workouts, nutrition, and overall wellness goals.
Focused on providing users with personalized fitness plans and wellness guidance.
Ensured a seamless user experience with responsive design and intuitive navigation.

Technology:-CodeIgniter, Html, CSS, JavaScript, jQuery.

Novotrend

Developed a CRM and trading platform enabling user registration, KYC, bank account setup, MT5 account management, trading, deposits/withdrawals, wallet and MT5 transfers, support tickets, transaction tracking, and notifications. Implemented referral system with multi-level commissions. Admin panel features include user & MT5 management, request approvals, reporting, and IB hierarchy management.
