

Bhagyesh R Bhupta

(Software developer)

Wordpress Developer (3.3 years +) | PHP Developer (4 months)

Email: bhagyeshbhupta@gmail.com | Phone: [\(+91\) 7228076558](tel:+917228076558) , [\(+91\) 8780488076](tel:+918780488076)

SKILLS:

CMS/Frameworks: WordPress (Expert), WooCommerce, Drupal, Laravel, PHP Core

WP Development: Custom Theme & Plugin Development, ACF, Elementor, Gutenberg, WP REST API, Contact Form 7

Databases/ DevOps: MySQL, MongoDB, **AWS/Server Migration**, Hosting/FTP Management, WP-CLI, Debugging

EXPERIENCE :

Wordpress Developer, Technostacks Infotech Pvt. Ltd, Ahmedabad, Jan 2024–present

- **Customized** complex premium themes (Envato) and leveraged Elementor to build dynamic page layouts, reducing development time by an estimated **20%**.
- **Managed** server-side aspects of web hosting and migration, successfully transferring client websites from external servers to new WordPress environments (leveraging FTP/cPanel access).
- Optimized site performance and reliability by debugging and troubleshooting complex third-party plugin conflicts.
- Managed and maintained critical e-commerce functionality within WooCommerce, ensuring smooth operation of product listings, inventory, and payment gateways
- Engineered custom WordPress plugins and functions from scratch to meet unique client requirements, enhancing site functionality and user experience.
- **Spearheaded** responsive frontend development using **Tailwind CSS** and SCSS, delivering modern, optimized, and performant sites (e.g., 'Binary Health')

- Provided daily technical support and development services to clients, consistently resolving development challenges and delivering solutions under tight deadlines
- Managed and updated the JIRA ticketing platform daily, ensuring all development tasks, progress logs, and client communications were accurately tracked and documented.
- Maintained transparent communication with dedicated service-based clients, providing daily progress updates and technical feedback to ensure satisfaction and alignment.

Wordpress Developer, Digital friend, Ahmedabad, Aug 2023–Dec 2023

- **Executed** end-to-end theme integration and configuration for new WordPress website launches, ensuring all setups met performance and security standards
- Maintained and supported a portfolio of high-traffic e-commerce sites, including **CommercelQ** and Johnsonpharma, focusing on uptime and functionality.
- **Managed** and controlled FTP access, file deployment, and website hosting configurations in collaboration with the management team, ensuring smooth delivery environments
- Specialized in e-commerce setup and functionality, successfully configuring WooCommerce and payment gateways for multiple new online stores.

PHP Developer, Gateway Group of Companies, Ahmedabad, June 2023- Aug 2023

- **Supported** essential site maintenance and critical updates for company web properties using **PHP Core**.
- **Collaborated** effectively with the development team, contributing to various project modules as needed.
- **Developed** foundational skills in **WordPress plugin integration** and contributed to **Drupal theme development** for team projects.

Associate, Gateway Group of Companies, Ahmedabad, Dec 2022-June 2023

- **Completed** a final semester internship project focused on full-stack web development, culminating in the **Vehicle Inventory** system.
- Acquired foundational training across multiple technologies, including MySQL, PHP Core, .NET, Drupal, and Android, providing a broad technical base.

- **Developed** the **Vehicle Inventory** system concurrently across three different stacks: **WordPress**, **Drupal**, and native **PHP Core**, demonstrating platform versatility
 - Active participant in the Global WordPress Community (WordCamps, Meetups) and contributing developer discussions on Stack Overflow.
-

PROJECTS :

Vehicle Inventory(Internship Project)

Tech Stack: PHP Core, JavaScript, AJAX, MySQL, WordPress, Drupal

- **Architected** and independently **developed** a full-featured Vehicle Inventory System, demonstrating foundational full-stack competency by building the application across three distinct environments: **PHP Core**, **WordPress**, and **Drupal**.
- Implemented core business logic focused on car selling and servicing, using PHP/MySQL for secure data handling and AJAX/JavaScript for dynamic, non-reloading inventory filtering and search.
- Engineered dynamic content management capabilities within the WordPress instance using Advanced Custom Fields (ACF) and integrated client lead capture via Contact Form 7 to enable efficient content updates and sales inquiries.

CommercelQ (the Company's Project)

Tech Stack: Wordpress,Hubspot,Semrush,Javascript

- Managed and executed all front-end development and Content Management System (CMS) support for the core marketing websites (commerceiq.ai and associated pages), ensuring high-quality user experience and compliance with brand standards.
- Engineered custom, dynamic, and responsive website sections (e.g., site banners, HubSpot landing pages, forms) using Advanced Custom Fields (ACF) within WordPress to reduce content update time
- Site Link:- <https://commerceiq.ai/>

LISTS of Other Projects :

I was a major contributor to the successful delivery of several key projects, including:

Tribute WP: A significant enterprise project where I managed the migration of over 100 client sites from standalone servers to a unified WP Engine environment.

Energy Mission: I was involved in the web development for this client initiative focusing on sustainable energy solutions (LINK: <http://previewsite.in/energymission/>).

Aries Hair Salon: I contributed to the development of this vibrant website for a modern hair salon (LINK: <http://previewsite.in/arise>).

Facade Rendering: I played a role in the web project showcasing architectural visualization and exterior design services (LINK: <http://previewsite.in/facade/>).

I have also been integral to the successful completion of many more projects not listed here.

EDUCATION :

Marwadi Education Foundation, Rajkot, Bachelor Computer Engineering

Gujarat Technical University

2020-2023

Government Polytechnic, Porbandar, Diploma of Computer Engineering

Gujarat Technical University

2017-2020
