

VANDAN MAKWANA

Senior PHP Laravel Developer

Experience: **7+ Years**

vandanmakwana7590@gmail.com | +91 8866004118 | Bhavnagar, Gujarat, India

PROFESSIONAL SUMMARY

Results-driven **Senior PHP Laravel Developer** with **7+ years of hands-on expertise** in architecting and delivering enterprise-grade web applications, ERP systems, and scalable SaaS platforms. Proven ability to design and build complex multi-tenant architectures, RESTful APIs, and seamless third-party integrations (Xero, Zoho CRM). Deep proficiency in the modern Laravel ecosystem including **Laravel Livewire** for reactive, real-time interfaces, alongside **Alpine.js** and **Tailwind CSS** for rapid, polished frontend development. Track record of leading full-cycle projects from requirements gathering through production deployment, consistently driving measurable operational efficiency and business impact across diverse industries.

CORE COMPETENCIES

Laravel 5.x – 11.x, Laravel Livewire, RESTful API Design, Multi-tenant SaaS, PHP 7.x / 8.x, MySQL & Optimization, Alpine.js, Tailwind CSS, Xero & Zoho Integration, Git / GitHub, Eloquent ORM, JavaScript (ES6+), jQuery & AJAX, ERP Development, Yii2 Framework

PROFESSIONAL EXPERIENCE

Senior PHP Laravel Developer

Artifex Online | October 2022 – Present | Remote

Enterprise ERP System Development

- Architected and delivered a comprehensive, end-to-end ERP platform encompassing supplier management, inventory tracking, purchase orders, proforma invoicing, and a fully integrated CRM — supporting the entire operational lifecycle of the business.
- Designed and implemented a modular, scalable system architecture that cleanly separates business domains (finance, supply chain, procurement, client relations), enabling rapid feature iteration and long-term maintainability across multiple business units.

- Engineered seamless **Xero Accounting Software integration** via OAuth 2.0, enabling real-time financial transaction synchronisation, automated invoice reconciliation, and bidirectional data sync — reducing manual data-entry overhead by **85%**.
- Built dynamic, role-based dashboards and reporting modules using **Laravel Livewire** for reactive UI updates without full-page reloads, covering inventory forecasting, purchase order tracking, and financial summaries.
- Developed robust **Laravel Livewire components** for real-time form validation, live search across product catalogues, and interactive workflow steps within purchase and invoicing pipelines.
- Implemented comprehensive data validation, error handling, and audit logging across all ERP modules, ensuring data integrity and full traceability of financial and operational transactions.

Multi-Tenant Community Platform (SaaS)

- Engineered a white-label, multi-tenant SaaS platform enabling organisations to create fully customised business websites including church portals, sports clubs, and community groups with brand-specific configurations and isolated data environments.
- Implemented tenant isolation, custom domain mapping, and granular role-based access control (RBAC), successfully serving **50+ active organisations** with zero cross-tenant data exposure.
- Leveraged **Laravel Livewire** extensively to build reactive, dynamic user interfaces — achieving a **40% improvement in development velocity** compared to traditional jQuery-heavy approaches.
- Utilised **Alpine.js** for lightweight, declarative frontend interactivity and **Tailwind CSS** for a utility-first responsive design system — delivering a modern, consistent UX with rapid iteration cycles.

Partner Management Portal & CRM Integration

- Developed an internal partner portal for tracking sales performance, lead generation, account management, and partnership analytics, with comprehensive automated reporting dashboards.
- Integrated the **Zoho CRM API** for bidirectional data synchronisation, automating lead distribution, sales pipeline updates, and partner activity tracking — improving overall partner productivity by **60%**.

- Built a custom reporting engine that generates automated performance insights, revenue forecasting reports, and trend analyses for stakeholders, reducing manual reporting time significantly.

PHP Laravel Developer

Inexture Solutions LLP | September 2020 – September 2022 | Ahmedabad, Gujarat

- Designed and implemented a full-featured employee tracking system managing task assignments, attendance, leave management, and performance monitoring with real-time reporting and dashboard capabilities.
- Developed a suite of secure **RESTful APIs** for Tingum App, a service-marketplace platform connecting providers and customers, including authentication workflows, booking management, and a rating system.
- Contributed to the Pharmaceutura pharmaceutical platform, building dynamic product catalogues, company directories, and a CMS-like content management layer with a scalable backend architecture.
- Participated actively in agile ceremonies including code reviews, sprint planning, and cross-team knowledge-sharing sessions, contributing to a culture of collaborative, high-quality software development.

Junior Laravel Developer

Rigel Networks | March 2020 – September 2020 | Ahmedabad, Gujarat

- Collaborated closely with senior developers on Laravel-based web applications, contributing to bug resolution, feature enhancements, and codebase improvements.
- Strengthened application stability through systematic debugging, root-cause analysis, and the implementation of unit tests across core modules.

Associate Developer

Byte and Bits | December 2018 – February 2020 | Bhavnagar, Gujarat

- Created custom reporting modules and automated email-communication systems using **Laravel Blade templating**, streamlining internal workflows.
 - Built foundational proficiency in the Laravel ecosystem including **Eloquent ORM, routing, middleware, authentication, and MVC architecture** while delivering production features independently.
-

TECHNICAL SKILLS

Backend

PHP 7.x/8.x, Laravel 5.x–11.x, Laravel Livewire, Eloquent ORM, RESTful APIs, Yii2 Framework

Frontend

HTML5, CSS3, JavaScript (ES6+), jQuery, AJAX, Alpine.js, Tailwind CSS, Blade Templating

Database

MySQL, Relational Database Design, Query Optimisation, Migrations & Seeders

Tools

Git / GitHub, Composer, NPM, Postman, REST API Testing & Integration

Integrations

Xero Accounting API (OAuth 2.0), Zoho CRM API, Firebase, SMS / Email Services

KEY ACHIEVEMENTS

- Successfully delivered **15+ production-grade web applications** across enterprise ERP, multi-tenant SaaS, pharmaceutical, and service-marketplace verticals.
 - Architected and deployed complex third-party integrations with **Xero Accounting and Zoho CRM**, eliminating redundant manual processes and significantly improving data accuracy and operational speed.
 - Built a scalable, multi-tenant SaaS architecture serving **50+ organisations** with full tenant isolation, custom domain support, and brand-specific configurations.
 - Led the adoption of **Laravel Livewire** across multiple projects, delivering reactive, real-time interfaces that measurably improved development efficiency and end-user experience.
 - Designed and delivered a modular ERP system with end-to-end financial integration, real-time dashboards, and comprehensive audit trails — reducing manual operational overhead by over **85%**.
-

EDUCATION

Master of Science in Information Technology (M.Sc. IT) – Graduated: July 2018

Shree Swaminarayan College of Computer Science, Bhavnagar

Bachelor of Computer Applications (BCA) – Graduated: July 2016

Shree Swaminarayan College of Computer Science, Bhavnagar
